

# WE'RE PROUD

to see our people get ahead.

▲ In 2005, Bernice Costor celebrated 50 years of service. Bernice loves her job. She's administrator of the Bridgestone Firestone Trust Fund which donates millions annually to charity.

▲ At Bridgestone Americas, we believe if you dream big and work hard, good things will happen. Just ask Dovie Majors. She started on the shop floor at our plant in Oklahoma City, and worked her way up to production manager at our plant in La Vergne, TN. We provide our 39,000 U.S. teammates with excellent pay and benefits. But we also invest in their potential. Dovie's making the most of our leadership training programs. She has the desire and talent. We just provide the tools to help her build a great career.

▲ Our Warren County, TN, and Aiken County, SC, facilities are the only two tire plants in the U.S. to earn VPP STAR status, the federal government's highest award for outstanding safety and health management.

▲ Our teammates in La Vergne, TN, are working together making data-driven decisions which constantly improve quality, processes and systems.

Bridgestone Americas—U.S.  
Production Plants 45  
Jobs 39,000  
Investment \$2.1 Billion\*
